ALBERTA

Directory of Automation

Thank you to the advertisers who believed in our success from the beginning, 30 years ago.

ISA EDMONTON SECTION

2023-2024 PRESIDENT'S MESSAGE

First Woman President

I am honoured to be the ISA Edmonton Section's FIRST female president. Humbly, I hope to promote inclusivity and attract many aspiring professionals to the automation world and to ISA Edmonton where we empower each other, catapult learning experiences, and continue to be one of the strongest Sections globally. On that note, I cordially invite you all to attend our Women in Automation Luncheon this spring.

Digital Transformation

Looking forward, from industrial to enterprise applications, automation continues to be transformational, ushering in a new era of unparalleled potential. Let's embrace the future of digital transformation and together "build a better world through automation". Dive in with us at the end of October when we hear about Shell's Robotic Dogs (Robotic Process Automation) at our Technical Talk.

Looking Forward

As our leader, I will do my best to support the successful history of ISA Edmonton Section's continued offerings: like the Alberta Directory of Automation (congratulations on 30 years!), AEC (Automation Expo & Conference) and our Fall Classic Golf Tournament, while embracing emerging automation solutions.

With Gratitude

I would like to thank the ISA for the countless benefits it affords me. From leadership opportunities to professional development, strategic career growth to mentorship, technical advancement to networking, and most importantly, for the friendships I've made – ISA Edmonton Section will bolster your journey.

It's an exciting time to be in automation.

ISA CALGARY SECTION

2023-2024 PRESIDENT'S MESSAGE

Automation is EXPLODING and will continue to play an increasing role in our lives, both professionally, even personally. Looking at the demand in the marketplace, I see a great future for our industry. In general, all sectors will be furthering their automaton and digital transformation efforts, and this is a climate where those (both businesses and people) that have embraced what the ISA has to offer will stand out.

My presidency will centre around showcasing the value ISA brings to the automation industry, and how ISA helps. Elevating automation in Southern Alberta is truly what The ISA Calgary Section is all about.

WHAT INSPIRED ME TO BECOME PRESIDENT?

I have been an ISA Member for many years, starting with the ISA Dhahran Section (read more about my journey). A few years ago, I was compelled to become actively involved in the ISA Calgary Section, and worked as Secretary and Treasurer. I am continuing my efforts by volunteering as President this year, with the intention of giving back and making an impact, which hopefully will bring me great satisfaction.

MY PRESIDENTIAL GOALS? I HAVE MANY.

Top of my agenda, providing knowledge about new technologies and opportunities to build your professional network.

Promoting the value that ISA brings: to members - and - to local industry (training, certification and standards).

Building the automation community in Calgary and Alberta.

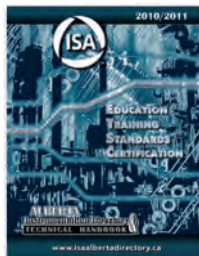

Growing ISA Calgary Section membership.

Let's get started.

Avensys

Your Partner for Process & Environmental Monitoring

Providing consistent solutions for process measurement
& control applications for over 50 years!

World leader in the design and manufacturing of high quality gas and liquid analyzers.

Manufacturing turnkey ambient air quality, industrial emissions, process gas and particulate monitoring systems.

Ask us about the Mir 9000e. This unit provides superior metrological performance for up to 8 simultaneous multi-gas measurements.

A leading specialist of continuous particulate emission monitors.

A leading manufacturer of Biogas and Landfill Gas Analyzers

A leading manufacturer and supplier of rugged, reliable instrumentation for water and wastewater sampling and flow monitoring.

Manufacturing flow measuring systems for the bulk solids industry.

New features ensure an increased reliability of results.

Leading provider of trusted gas detection solutions in the realms of worker safety, loss prevention, and air quality.

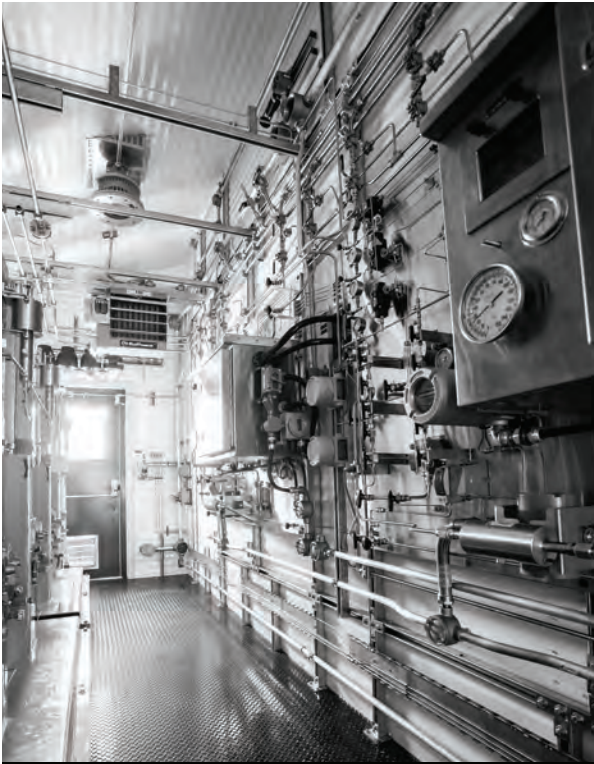

A Leading manufacturer of pressure and consistency transmitters, turbidity sensors for liquids, and much more.

ANALYTICAL

Our expertise in analytical solutions will help you determine the appropriate solution for your application, including Liquid Analytical and Continuous Gas monitoring systems.

SAFETY & SECURITY

Local experts for everything from Wireless Asset Software, Portable Gas Detection, Fixed Gas Detection, Flame Detection, Controllers, to Leak Detection.

RADIOMETRIC

Combined with our RSO trained Service Technicians, we provide Nuclear Level Measurement and Point Level Detection, as well as Density, and Multiphase measurement solutions.

COMPRESSED AIR

We represent top-of-the-line NG, Oil-Free, Piston, Rotary and Vacuum Compressors. We also provide Air Treatment, Leak Detection, and Efficiency Quotient services.

AUTOMATION

Our automation solutions include Terminal Management, Flow Computers, RTU Packages, Controls and Distributed I/O, Conversion to Isolation, and Functional Safety.

VALVES & ACTUATION

We will equip your process with world class Valve and Actuation solutions. Our offerings encompass a full portfolio for control, throttling, isolation, and specialty applications, both in linear and rotary designs.

HEATING & THERMAL

We are focused on providing pre-packaged and complete combustion products, controls, and heating management systems. Delivering safe, compliant, and efficient thermal processes from commercial to industrial divisions.

FIELD INSTRUMENTS

Instrumentation is our forte. We supply Pressure, Temperature, Flow Measurement, and Level Measurement products for various process conditions.

Looking to Reduce your Methane Venting? We have Solutions!

ELIMINATOR Solar Air Compressor

- Class 1 Div. 1, 12/24v DC or 120 VAC
- Produces 60SCFH @ 30psi. Uses 48Watts/Hr. @ 20% duty
- Oil less and maintenance free design. 100% duty cycle
- Class 1 Div. 1 controller with integrated metering
- 100% contained compressor - Contaminant free air

ELIMINATOR Solar Chemical Pump

- Class 1 Div. 1 - Completely self-contained
- Injection rate - 0.1L/Day to 140L/Day
- Injection pressure up to 3000psi
- Accurate to 3ml or less
- Ability to retrofit existing pumps to minimize costs when upgrading equipment

Need Composite Sampling?

TOP CUT Proportional Samplers

Daily and monthly pressurized samples for well and pipeline product quality analysis

- TC-100 -24hrs well test sampling 2000ml sample Jug
- TC-200 -24hrs or monthly LACT sampling with a 15psi sample canister (solar/electric drive options)
- TC-300 -24hrs or monthly high-pressure sampling with a 1800psi sample cylinder (solar/electric drive options)

TOP CUT Proportional Sampler Accessories

- Static Mixer (Flanged/Threaded)
- Sample Quill
- Inline Sample Probe

"Your Flow Technology Experts"

	Variable area flow meters, Coriolis mass flow, thermal mass flow and pressure control technologies (pressure transmitters and more) to improve your critical processes.
	The premier pinch valves (1"–40") for abrasive or aggressive media. Heavy duty & general line pinch valves. Low maintenance elastomer check valves.
	Peristaltic pumps for pumping slurries, dry or aggressive media from 0–440 GPM. High efficiency PC pumps. Metering pumps with outstanding turndown.
	Key Instruments delivers that combination in our versatile line of plastic variable area oxygen flow meters. Durability is the result of precision-machined, acrylic-body blocks that can handle demanding projects and mounting panels.
	Designs, develops and manufactures valves, actuators and valve control products. Manual and actuated ball valves & butterfly valves. Positioners, solenoid valves & limit switches.
	Clamp-on ultrasonic flow meters, clamp-on BTU Meters for energy, clamp-on doppler flow meters, non-invasive, no interruption to process & no downtime, wide range of portable & permanent meters for any liquid.
	Electronic grease meters. Pneumatic 1:6, 1:5, 1.65 grease pumps. Automated, centralized dual line lubrication systems.
	Positive Displacement Oval Gear Flow Meters, Retractable Hose Reels and Grease / Oil / Fuel Fluid Handling Products for the Petrochemical, agriculture, automotive, chemical, industrial, general process, marine, & mining industries.

COMMITTED TO PROVIDING UNSURPASSED CUSTOMER SERVICE AND SUPERIOR PRODUCTS FOR DETECTION, MEASUREMENT AND CONTROL

PROCON is proud to be affiliated with some of the world's most recognized names in detection, measurement and control. Together, we have been meeting the demanding needs of customers around the globe. If your life or business depends on precise measurement and control, or accurate detection of potentially hazardous workplace atmospheres, you can rely on the precision instrumentation and expertise of PROCON.

Flow Products

Venturi meters, flow nozzles, segmental wedge Venturi meters.

Mass flow meters; single point, in-line and multi-point insertion elements; portable air velocity meters; flow control valves for use with air, industrial gases, flue and ultrapure gases.

Signature process transit-time ultrasonic flow meters for liquids, flare, gas and steam using wetted or clamp-on transducers; multi-chord ultrasonic liquid meters for high accuracy, wide ranging viscosity/high availability applications.

Omega tube Coriolis mass meters, 1/2" to 12 sizes, process temperatures to 350°C.

Magnetic flow meters for water, wastewater and slurry applications.

Multipath ultrasonic gas flow meters utilizing a patented Broadband Continuous Wave signal processing technique. The 3 path meter is ideal for difficult process applications where fast, accurate and reliable performance is required. The 4 path AGA-9 and OIML R137 compliant fiscal meters provide the same reliability and fast response with custody transfer accuracy and repeatability.

Precision multivariable insertion, wafer, and flanged Vortex flow meters for liquid, gas, steam and energy service. Multivariable insertion turbine flow meters for liquid, gas, and steam service. Portable and fixed installation clamp-on "transit time" ultrasonic flowmeters for liquid applications. Handles pipe sizes from 10 mm to 5 meters.

Measurement & Analytical Products

Industrial and lab chilled mirror dewpoint analyzers and transmitters. Process oxygen Transmitters and sample conditioning systems.

Field proven industrial analytical solutions for water industries.

Oil-on-water sheen monitoring systems, oil thickness monitoring, wireless oil spill detection systems.

Fiscal densitometers for liquids.

Moisture analyzer sample conditioning systems with CRN's, moisture sensor calibration; pressure, temperature, electrical calibrations.

Ultrasonic density and concentration analyzer systems.

Industrial aluminum oxide dewpoint analyzers, transmitters, portables and sample conditioning systems.

Intrinsic Safety

Single and dual channel intrinsic safety barriers and isolators, Zone 1 hazardous area Remote I/O Systems.

Gas & Optical Flame Detection Products

UV, UV/IR, Multispectrum IR5 infrared flame detectors featuring patented fire event analysis.

Fixed gas detection transmitters and controllers for the monitoring of combustible and toxic gases. Rig Protector 4 portable area monitoring systems for toxic, oxygen and combustible gases.

Fixed gas detection transmitters and controllers for the monitoring of combustible and toxic gases.

Sampling and Mixing Products

Static mixers to maximize contact and minimize variance; steam heaters and desuperheaters.

Gas and liquid samplers; crude oil samplers; constant pressure sample cylinders (Transport Canada approved); probe regulators; analyzer accessories; sample probes.

Rotating Equipment Controls

Turbomachinery control solutions; anti-surge and load sharing; steam turbine speed and extraction control; API 670 compliant over-speed prevention.

Flow Computers

Natural gas and liquid flow computers from 1 to 32 runs.

Asset Integrity Monitoring

Real time remote corrosion/erosion monitoring systems for piping systems and vessels.

Alarm Annunciation Products

Fully programmable alarm annunciators; stand-alone alarm systems; signal conditioners; display fascias.

MTM3213

PMC-STIS Inc. Miniature Depth & Level Pressure Transmitter

- Fully submersible 0.39" diameter
- Piezoresistive Sensor
- Ranges: 0-15 PSIG to 0-500 PSIG
- 0.1% accuracy
- Material: Titanium with 5-year corrosion warranty
- Output signal: 4-20mA

VL2213IS

PMC-STIS Inc. Wastewater/Open Face Level Transmitter

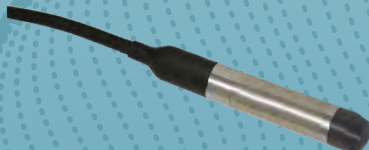

- Range: 0-300 PSI
- Accuracy: $\pm 0.1\%$ FS or $\pm 0.25\%$ FS
- Electrical: 2-wire, 4-20mA, 10-35 VDC
- FMC Intrinsically safe
- Cable: Polyurethane molded, vented with Kevlar, 4 conductors, or FEP
- Housing material: Titanium 5-year corrosion warranty

D1010S

GM International Galvanic Isolator Transmitter Repeater Power Supply

- 4/0-20mA input, 4-20mA output
- Input and output short circuit protection
- High Accuracy
- Three port isolation, Input/Output/Power
- Field programmability by DIP Switch

VL5004

PMC-STIS Inc. Dual Pressure & Temperature Transmitter

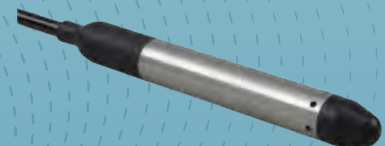

- Total accuracy $\pm 0.1\%$
- Level and temperature output
- Molded polyurethane cable
- Diameter: 0.95", titanium construction

HX-P420

Unimeasure Linear Position Transducers

- Temperature: -40°C to 95°C
- Measurement ranges: 0 to 2,000 inches
- Analog output: 4-20mA
- cUL Intrinsically Safe

VL4213IS

PMC-STIS Inc. Intrinsically Safe Depth & Level Pressure Transmitter

- Ranges: 0-300 PSI
- 0.1% & 0.25% accuracy
- $\frac{3}{4}$ " diameter welded titanium
- 4-20mA, 2-wire output
- Molded polyurethane cable

CLEAN ENERGY SOLUTIONS TODAY FOR A SAFER TOMORROW

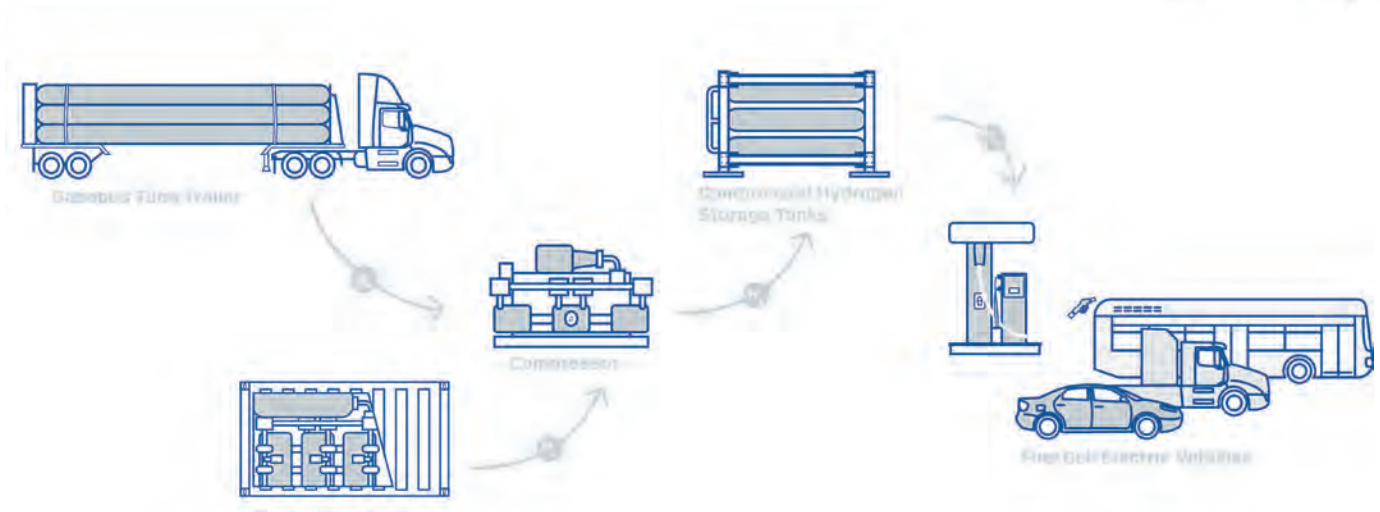

Minimizing Downtime, Maximizing Reliability

Moving cleanly-produced hydrogen to end-use applications involves a closely linked chain of processing, storage, distribution, and transmission equipment. Across physical and virtual hydrogen pipelines, high levels of fluid system performance are a necessity.

High-quality Swagelok® products and custom or standard preassembled systems can help you reliably distribute hydrogen. With our specialized local knowledge, supported by Swagelok's global team, we can apply our expertise to help you accelerate the development of important hydrogen microgrids and distribution infrastructure.
