DIRECTORY OF AUTOMATION

2021 - 2022

International Society of Automation
Calgary Section

International Society of Automation
Edmonton Section

28th
EDITION

isaalbertadirectory.ca

Welcome to the 28th edition of the ISA Alberta Directory of Automation brought to you by the ISA Edmonton & Calgary Sections.

New this year! We're proud to have incorporated System Integrators into our mix of advertisers. Additionally, our website now has the capability of showcasing case studies.

Thank you to all of our 2021 – 2022 advertisers for your support; we are pleased to announce a growth year after a pandemic-slowed 2020 – 2021. This year we have 58 advertisers, a 21% increase from last year. An honourable 18 of these have advertised every year since our inaugural publication, and we're happy to welcome 5 brand new advertisers.

We encourage all of our advertisers as well as those that use this as a resource to get more involved with our local sections. There are ample ways to do so: join one of our boards, help with our student section and young professional initiatives, attend our events and more.

Finally, we'd like to applaud ExecuGraphx, our ISA Directory of Automation publisher, for yet another successful year – and – another job well done.

Mark Tarrant
2021 – 2022 President

ISA EDMONTON SECTION

2021-2022 PRESIDENT'S MESSAGE

Thank you to all ISA Edmonton Section members for putting your faith in me as your 2021-2022 President as we contend with the pandemic.

Firstly, it is with great pride that I take over as President in 2021, a year that saw us win our first ever Section Excellence Award- that's right, we're the #1 ISA Section in the world (out of 110 sections across the globe)! ...And what better year to be the honouree than in our 50th - that's right, it's also our Section's Golden Anniversary!

Belonging. Becoming. Beyond!

Since COVID-19 struck, our rituals and routines have been challenged, and because of this many of us have developed a greater appreciation for what we have/had. More than ever, we are drawn to the idea of belonging to something, invigorated by the possibility of becoming more than we are, and considering what's beyond/next.

Belonging

We all want to feel a sense of community and like we're a part of something. The ISA Edmonton Section offers just that for automation professionals (whether you've been in the industry for years, have recently graduated or are a student). Please consider getting involved: be a **member**, attend our **events**, join our **Board**, be a **Mentor** & more.

Becoming

Recent global events have really challenged who we are as a Section and how we've done things in the past. Serendipitously, this accelerated our efforts to expand how we go about reaching members and our community. Becoming an advocate of virtual connections is what it's been about. We've embraced technology that allows us to deliver impressive virtual events, and will continue to do so by offering hybrid events as we transition back to in person.

Beyond

We're thinking bigger picture; moving above and beyond our current state and building upon our successes of connecting virtually. How can we use this as a catalyst to continue to reach a larger audience and create inclusivity? Your thoughts and suggestions are welcome.

2021 - 2022 EDMONTON BOARD MEMBERS

ISA CALGARY SECTION

2021-2022 PRESIDENT'S MESSAGE

First and foremost, I hope that this message finds everyone happy and healthy as the world transitions back to the - new - new - normal.

My thanks to Ryan Warrington for leading the past years board efforts, specifically launching a new website, and optimizing ISA Calgary Section marketing and administrative operations.

As many of you know, the next generation has always been near and dear to my heart. Post pandemic, I am very grateful for the privilege of being able to once again teach and lead my students face to face, and the opportunity to help facilitate industry collaboration with young professionals (it's so much easier in person).

It should come as no surprise that my main focus as your 2021/2022 President is - our youth, our future - and therefore will revolve around:

- Facilitating student to industry placement and mentorship.
- Exploring ISA sub-committee(s) recent dialog that addresses how to better fulfill the needs of our young professional members.
- Furthering efforts to seamlessly integrate students and graduates, to professional members.
- Supporting automation related student activities.
- Collaborating with other industry placement agencies at student and industry events.
- Ensuring available scholarships are known to all qualified student candidates.

Another focus for me will be our marquee event, the ISA Calgary Show taking place November 9 & 10. After having to postpone it from spring 2021, we are very much looking forward to delivering this event where thousands of automation professionals (colleagues and friends) gather.

In closing, this year we will be cautiously optimistic as we bounce back from the restraints we've all faced. I genuinely look forward to, and will embrace and appreciate, the support of industry, our community and our sponsors as we move forward.

Please feel free to reach out anytime, follow us on LinkedIn or connect with me.

Best Regards,
Mark Tarrant

Aircom
Instrumentation Ltd.

We Don't Create the Demand - We Meet It. Aircom is a company that believes meeting industry demands first requires relationships, trust, and a sense of urgency. We meet that demand with a system we call The Aircom Way. The result is a flexible approach that is executed by a team of dedicated problem solvers who are driven to excel.

Products Unique to Aircom:

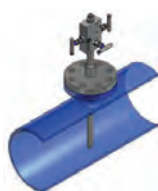

- ▶ BTB Thermocouple (Tube metal temperature) Thermocouples
- ▶ Pipe Shoe Riser
- ▶ Break-To-Length RTDs & Thermocouples
- ▶ PT (Pressure/Temperature) Thermowells
- ▶ Reactor Multipoint Temperature
- ▶ Tank Gauging Multi-Point RTD Sensor
- ▶ Instrument Valves & Manifolds
- ▶ StrakeWell™ & StrakeQuill™

Manufactured Products:

- ▶ Thermocouple & RTD sensors manufactured to standard or custom specifications
- ▶ Hazardous location (CSA)  approved temperature sensor assemblies
- ▶ Thermowells and protection tubes (CRN Available)
- ▶ Injection quills & sample probes (CRN Available)
- ▶ Multi-point temperature sensors
- ▶ Downhole temperature sensors
- ▶ Condensate pots and sample cylinders
- ▶ Bleed & flush rings
- ▶ Stilling well and level chambers

SOLUTIONS FOR MEASUREMENT & CONTROL

PMV

Valve Control

POSITIONERS

- Digital – Hi Air Delivery – Zero Bleed
- Certified for Natural Gas
- Highly Reliable – User Friendly
- Pneumatic – Electro Pneumatic
- General Purpose, Explosion Proof, Intrinsically Safe
- Epoxy Coated Aluminum or Stainless Steel
- HART, Foundation Fieldbus, Profibus
- Valve Diagnostic Software Included

POSITION FEEDBACK MONITORS

- Assorted Materials
 - Aluminum
 - Engineered Resin
 - Stainless Steel
- Assorted Switch Options
 - Mechanical
 - Proximity
 - Namur
 - Built In Solenoid Valves

BEI SENSORS

Position – Speed

INDUSTRIAL ENCODERS

- Incremental
- Absolute
- General Purpose
- Explosion Proof
- Wireless
- Gray Scale SSI or CANBUS Output

macnaught

Flow Metering

POSITIVE DISPLACEMENT

- High Accuracy – Repeatability
- Install in any piping configuration
 - Assorted Materials
 - Aluminum
 - Stainless Steel
 - Rytan
- Broad Range of Sizes and Flow Capacities
 - 1/4" (100 LPH) > 4" (1200 LPM)

ADDITIONAL

- Thermal Mass
- Transit Time
- Ultrasonic
- Electromagnetic
- Vortex
- Doppler Ultrasonic

Looking to Reduce your Methane Venting? We have Solutions!

ELIMINATOR Solar Air Compressor

- Class 1 Div. 1, 12/24v DC or 120 VAC
- Produces 60SCFH @ 30psi. Uses 48Watts/Hr. @ 20% duty
- Oil less and maintenance free design. 100% duty cycle
- Class 1 Div. 1 controller with integrated metering
- 100% contained compressor - Contaminant free air

ELIMINATOR Solar Chemical Pump

- Class 1 Div. 1 – Completely self-contained
- Injection rate – 0.1L/Day to 140L/Day
- Injection pressure up to 3000psi
- Accurate to 3ml or less
- Ability to retrofit existing pumps to minimize costs when upgrading equipment

Need Composite Sampling?

TOP CUT Proportional Samplers

Daily and monthly pressurized samples for well and pipeline product quality analysis

- TC-100 -24hrs well test sampling 2000mL sample Jug
- TC-200 -24hrs or monthly LACT sampling with a 15psi sample canister (solar/electric drive options)
- TC-300 -24hrs or monthly high-pressure sampling with a 1800psi sample cylinder (solar/electric drive options)

TOP CUT Proportional Sampler Accessories

- Static Mixer (Flanged/Threaded)
- Sample Quill
- Inline Sample Probe

Electrical Control Solutions

Low Voltage

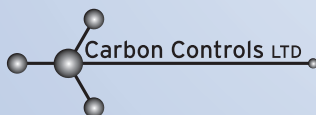

- VFDs, Soft Starts, Motors
 - Arc Flash Solutions Software/Hardware
 - Line, Load & Harmonic (Active/Passive) Filters
- Transfer Switches, Switchgear, Switchboards & Panelboards
- MCCs: Standard / Smart / Arc Resistive
 - Arc Flash Mitigation Units

Medium Voltage

- VFDs, Soft Starts, Motors
- Transfer Switches & Switchgear (Metal Clad or Arc Resistant)
 - Harmonic Filter Banks, PF Capacitors
- MCCs: Standard / Arc Resistant

Power Distribution

- LV & MV Transformers: Power / Pad Mount / MultiTap

- Methane/Oxygen Sensing Systems for Vacuum Compressor/VRU Applications
 - Biogas Monitoring Systems
 - Field Services

Flow & Level Instrumentation

- Ultrasonic Level Sensors
- Ultrasonic Doppler, Transit Time Flowmeter,
 - Open Channel & Area Velocity Meters
- Magnetic Flow Meters
- Sand Flow Meters
- Sludge Finder

- Liquid & Gas Turbine Meters
- Low-Flow Turbine Meters
- Transmitters & Totalizers
- Custom Meter Applications

- Helical Turbine Meters
- Ultrasonic Liquid Flow Meters
- CRN & Custody Transfer Approvals

- Wireless Sensor Network, Battery Powered
 - Transmitters - Flow, Level, Temperature & Pressure
- Wire Replacement / No Trenching
- Hardwired Instrumentation Solutions
- IIoT - Ready, Flow, Level, Pressure & Temperature Sensors

Fire, Gas & Safety Solutions

- Combustible & Toxic Gas Detection
 - Controllers & Accessories
 - Flame Detectors

- Infrared Point & Open Path Gas Detection

For 40 years, Hy-Lok has been committed to providing high quality products that reduce installation costs, while maintaining reliability in your fluid systems.

Made from high quality raw materials, Hy-Lok tube fittings are fully compatible & intermixable with other leading competitors.

We guarantee it!

Double Block & Bleed

Two ball One needle (OS & Y)
 Stainless Steel, Duplex, A105
 Savings on space, weight, installation and cost
 Increased safety
 Easy installation and maintenance
 PEEK or PCTFE seats
 Fire safety designed to API 607/6FA

Two-Ferrule Tube Fittings

Vibration Resistance
 Complete inter-mixability
 Gaugeable
 Excellent make up and re-make life

“Your Flow Technology Experts”

Variable area flow meters, Coriolis mass flow, thermal mass flow and pressure control technologies (pressure transmitters and more) to improve your critical processes.

The premier pinch valves (1”–40”) for abrasive or aggressive media. Heavy duty & general line pinch valves. Low maintenance elastomer check valves.

Peristaltic pumps for pumping slurries, dry or aggressive media from 0–440 GPM. High efficiency PC pumps. Metering pumps with outstanding turndown.

Designs, develops and manufactures valves, actuators and valve control products. Manual and actuated ball valves & butterfly valves. Positioners, solenoid valves & limit switches.

Clamp-on ultrasonic flow meters, clamp-on BTU Meters for energy, clamp-on doppler flow meters, non-invasive, no interruption to process & no downtime, wide range of portable & permanent meters for any liquid.

A unique heat spreading technology that delivers a lightweight, targeted heating solution for drums & barrels, instrumentation, piping, motors & equipment.

Electronic grease meters. Pneumatic 1:6, 1:5, 1.65 grease pumps. Automated, centralized dual line lubrication systems.

Positive Displacement Oval Gear Flow Meters, Retractable Hose Reels and Grease / Oil / Fuel Fluid Handling Products for the Petrochemical, agriculture, automotive, chemical, industrial, general process, marine, & mining industries.

Process Combustion Systems is an Industrial Combustion Solutions & Integration company. We strive to be an industry leader, by leveraging our industrial experience, combustion expertise and our partnerships with leading OEMs/technology providers. With a long history of successful projects and customer service, our solutions span a wide range of industries that include energy, mining & metals, food processing, chemicals, manufacturing, steam generation among others. Our project installations can be found globally.

COMMITTED TO PROVIDING UNSURPASSED CUSTOMER SERVICE AND SUPERIOR PRODUCTS FOR DETECTION, MEASUREMENT AND CONTROL

PROCON is proud to be affiliated with some of the world's most recognized names in detection, measurement and control. Together, we have been meeting the demanding needs of customers around the globe. If your life or business depends on precise measurement and control, or accurate detection of potentially hazardous workplace atmospheres, you can rely on the precision instrumentation and expertise of PROCON.

Flow Products

Venturi meters, flow nozzles, segmental wedge Venturi meters.

Mass flow meters; single point, in-line and multi-point insertion elements; portable air velocity meters; flow control valves for use with air, industrial gases, flue and ultrapure gases.

Psigature process transit-time ultrasonic flow meters for liquids, flare, gas and steam using wetted or clamp-on transducers; multi-chord ultrasonic liquid meters for high accuracy, wide ranging viscosity/high availability applications.

Omega tube Coriolis mass meters, 1/2" to 12 sizes, process temperatures to 350°C.

Magnetic flow meters for water, wastewater and slurry applications; process temperatures to 204°C.

Multipath ultrasonic gas flow meters utilizing a patented Broadband Continuous Wave signal processing technique. The 3 path meter is ideal for difficult process applications where fast, accurate and reliable performance is required. The 4 path AGA-9 and OIML R137 compliant fiscal meters provide the same reliability and fast response with custody transfer accuracy and repeatability.

Precision multivariable insertion, wafer, and flanged Vortex flow meters for liquid, gas, steam and energy service. Multivariable insertion turbine flow meters for liquid, gas, and steam service. Portable and fixed installation clamp-on "transit time" ultrasonic flowmeters for liquid applications. Handles pipe sizes from 10 mm to 5 meters.

Measurement & Analytical Products

Industrial and lab chilled mirror dewpoint analyzers and transmitters. Process oxygen Transmitters and sample conditioning systems.

Field proven industrial analytical solutions for water industries.

Oil-on-water sheen monitoring systems, oil thickness monitoring, wireless oil spill detection systems.

Fiscal densitometers for liquids and gases.

Moisture analyzer sample conditioning systems with CRN's, moisture sensor calibration; pressure, temperature, electrical calibrations.

Ultrasonic density and concentration analyzer systems.

Industrial aluminum oxide dewpoint analyzers, transmitters, portables and sample conditioning systems.

Intrinsic Safety

Single and dual channel intrinsic safety barriers and isolators, Zone 1 hazardous area Remote I/O Systems.

Gas & Optical Flame Detection Products

UV, UV/IR, Multispectrum IR5 infrared flame detectors featuring patented fire event analysis.

Fixed gas detection transmitters and controllers for the monitoring of combustible and toxic gases. Rig Protector 4 portable area monitoring systems for toxic, oxygen and combustible gases.

Fixed gas detection transmitters and controllers for the monitoring of combustible and toxic gases.

Sampling and Mixing Products

Static mixers to maximize contact and minimize variance; steam heaters and desuperheaters.

Gas and liquid samplers; crude oil samplers; constant pressure sample cylinders (Transport Canada approved); probe regulators; analyzer accessories; sample probes.

Rotating Equipment Controls

Turbomachinery control solutions; anti-surge and load sharing; steam turbine speed and extraction control; API 670 compliant over-speed prevention.

Flow Computers

Natural gas and liquid flow computers from 1 to 32 runs.

Asset Integrity Monitoring

Real time remote corrosion/erosion monitoring systems for piping systems and vessels.

Alarm Annunciation Products

Fully programmable alarm annunciators; stand-alone alarm systems; signal conditioners; display fascias.

MEMBERSHIP BENEFITS AT A GLANCE

Access tabletop technology exhibits, subject matter experts, networking and leadership opportunities, and local employment opportunities through geographic sections

Online viewing of over 150 standards, recommended practices and technical reports

Discounts on training, publications, and event registration

Unlimited downloads of technical papers (more than 5,500 of them)

Online, pre-recorded web seminars on key topics and trends

Two technical division memberships

Participation in Leadership Development Certificate Program

Online networking via ISA's *LISTSERV*

Access to the member directory

Subscriptions to *InTech*, the premier magazine for automation professionals, and the *Automation Weekly* newsletter

Online access to *ISA Transactions*, which covers the latest advances in measurement and automation

Online resume posting on *ISA Jobs*

Online access to *ISA Insights*, monthly member newsletter

A wide range of personal privileges, from discounted auto and group insurance rates to savings on hotel room reservations. For a full list of personal privileges provided, as well as more details on ISA member benefits, visit www.isa.org/memberbenefits

The International Society of Automation (ISA) is a non-profit professional association of engineers, technicians, and management engaged in industrial automation. As the globally trusted provider of foundational standards-based technical resources for the profession, ISA strives to build a better world through automation.

Visit isa.org

PROUDLY CELEBRATING OVER 30 YEARS!

Our team of local, factory trained, and experienced field service technicians are here to support all of your field requirements, throughout Canada.

Extensive Range of Innovative Level Solutions

High-visibility Magnetic Level Indication and High-accuracy Magnetostrictive Level Transmitters

Advanced Nucleonic Instrumentation for Level, Density, and Phase Measurement

Non-invasive Ultrasonic Flow, Concentration, BTU and Mass Flow Measurement

Flotation Cell Measurement-Acoustic

Leading provider of reliable, Accurate and Stable Gas Measurement Solutions

Fixed and Portable Fire and Gas Detection Systems

Primary Flow Elements, Wedge Meters, Venturis, Nozzles

Intrinsic safety, Process I/O, Industrial Networks, Surge Protection

Ultrasonic Technology for Flare Gas Measurement, Gas Venting

Integrated Real-Time Air Quality Monitoring Systems for Air Pollutants

High-level Total Sulfur Measurement of Crude, Bunker Fuel, Fuel Oils

Oil and Gas Pressure Transmitters

Particulate Monitoring, Baghouse Monitoring, Filter Leak Detection

Environmental Monitoring Stack Flow, Opacity, Stack Gas Measurements Oil and Gas Market, Gas Chromatography, H2S, CO2 and Moisture

Mud Flow Return Sensors, Top Drive and Wireless Encoders

Online Process and Low Level Ambient Air Gas Analysis

Process Refractometers for in-line Liquid Measurements

Distillation, Viscometers, Total Sulfur, Physical Property Analyzers

Smart Pressure, Differential Pressure and Temperature Transmitters

RedEye Water Cut Meters

Coriolis Flow Meters

MINITRAC 31: Radiometric Density Measurement

- ▶ 5 days to ship in North America
- ▶ Non-contact measurement for a maintenance-free operation
- ▶ Easy installation without an expensive process shutdown
- ▶ Measurement is independent of product properties
- ▶ Enclosed electronics ensure sensor longevity
- ▶ Mounting is simple with multiple bracket options

The mounting brackets available for the MiniTrac 31 come standard with the ability to mount directly in place of most competitors' density meters.

MONOFLANGE INSTRUMENT/ PROCESS VERSION

Due to its one-piece design, the model IVM monoflange can withstand high overpressures. It ensures a robust and compact mounting of the measuring instrument directly to the process flange.
